In 2025, I join!

L'innovation pour l'économie circulaire

JOIN **TEAM2** AND BECOME AN ESSENTIAL PLAYER IN INNOVATION FOR CIRCULAR ECONOMY

TEAM2 is the only competitiveness cluster on innovation to deploy circular economy principles in order to accelerate the ecological transition and limit our impacts on the environment. Its strategy is based on three axes:

- **Support** the transformation of our economic models, new consumption patterns and develop social cohesion.
- **Increase** the efficiency of resource use (metals, organics and minerals) through reuse, reconditioning and recycling.
- **Develop** innovative circular economy loops and demonstrators in the territories to measure the environmental, economic and societal impacts of the deployment of circular economy principles.
